What inspires you? There are lot of things that can provide inspiration seeing other people accomplish great things, seeing other people overcome adversity, hearing inspirational quotes from great people even the sheer beauty of nature can remind us just how lucky we are to be alive. "Accept responsibility for life, know that it is you who will get you where you want to go, no one else". Challenges are what make life interesting and overcoming them is what makes life meaningful, one reason that it allows you to expand your self-definition. You become larger in thought deed and attitude.

THINK OUT OF THE BOX

SELF REFLECTION

We should all have a dream in life, a vision of who or what we would like to be in the future. At a minimum, we at least keep some interest and values that determine what we want out of our lives. Trying to set achievable goals for over a long duration can sound vague in itself. It can be hard to know where to begin and the dreams to achieve may seem impossible.

Analyzing and writing about ourselves will lead us to more clarity. Stepping out of our comfort zone, limitless thinking, wide and vibrant outlook of things around us, to realize the areas to be improved we start to live our own dreams. With keen observation, stern mind, positive outlook and ensuring consistent progress will set a purpose in life.

Book Review

The Harry potter series is the best fantasy novel of all time J.K Rowling has written this series beautifully and she has given attention to the smallest detail. It has always inspired me. Harry potter is the character who gave me the wings of imagination and made an arena in book reading. The complete series is full of adventure, fun, entertainment, joy and thrills that take us to the virtual world of magic. Reading through the harry potter series was an amazing experience. Each of those books talks about friendship, love, enmity and life. J.K. Rowlings entertainment thriller also depicts the evil and righteous nature of people. It is definitely not age specific and can be enjoyed by one and all!!! Thank you J.K. Rowling.

Voice Box

My vision for our school has no border. I want my school to be an aspiration to all the schools. Our school offers a platform for all students to exhibit their hidden talents. We should not only develop the students in turns of competencies but also in their attitude. Let us aspire and inspire through respect and thankfulness that we show towards each other and make our school and abode of self-reflection.
